

## What I Believe Questionnaire

This form is for your personal use and will not be shared with the group. It will help clarify your current perceptions and belief system. These points are important understandings because they affect your attitudes, feelings, and actions. This is a tool to help you observe the adjustments that will come in your perceptions of God and His ways among us. There will be another form to fill out after you complete this series. You may be amazed at the changes in your understanding.
